

Welcome to HØIBERG Patent School

Webinar #2: Patentability

HØIBERG Patent School is a free webinar series for anyone interested in knowing more about intellectual property and the patenting process.

What are the requirements for an invention to be patentable?

If you are curious about patents and how patents can be used in your research or in your startup, this is an opportunity to learn the basics of patents and get answers to some of your questions.

This webinar is perfect for scientists, entrepreneurs, students or anyone interested in a practical seminar on the basics of patents. You are very welcome to invite your colleagues.

During this seminar we will go through the three requirements for patentability and provide some examples.

You will get answers to:

- What is prior art?
- What is *novelty*?
- What is *inventive step*?
- What is *industrial applicability*?
- Are there different requirements in different countries?
- How is a patent application assessed by patent authorities?

Sign up: <https://invajo.com/I/GKgnBaVYrU>

When: Wednesday **January 20th, 1 PM - 2PM.**

Where: ONLINE - A link to the webinar will be sent after signing up.

You will meet HØIBERG's patent attorneys:

Jens Viktor Nørgaard Partner, Head of Biotechnology & Plant Sciences, European Patent Attorney, Copenhagen and Stockholm (Presenter)

Charlotta Dahlborg Patent Attorney and Business developer, Stockholm (Presenter)

Vibeke Bay Patent Attorney, Aarhus (Moderator)
